

**CONSENT FOR ACCESS TO PROPERTY**

617

NAME: \_\_\_\_\_

3870

ADDRESS OF PROPERTY: 230 N.King Street, Gloucester CityLot 20, Block 19

I understand that the U.S. Environment Protection Agency (EPA) will conduct radiological surveys and engineering assessments on the Welsbach/General Gas Mantle Superfund Site (the Site), and on nearby properties that may have contamination from the Site. These investigations will be done in order to define accurately the extent of contamination on the property designated above and to design the remedial action necessary to deal with it.

Therefore, I consent to officers, employees and authorized representatives of EPA entering and having continued access to my property, in order to perform the work listed below:

- a) Measure and examine the property and structures on it;
- b) Determine the location and extent of radioactive material on the property through measurements and/or collection of samples of contaminated materials by digging or core drilling;
- c) Vidcotape and/or photograph the existing conditions of the land and structures on it (I may accompany the photographer and receive copies of any requested tapes or photographs); and
- d) Place small radiation monitors inside structures and periodically retrieve the monitors.

I realize that these actions by EPA and its representatives are taken according to its response and enforcement responsibilities under the Comprehensive Environmental, Response, Compensation, and Liability Act (Superfund), 42 U.S.C. §9601 et seq.

If further action must be taken, I understand that a new agreement will have to be agreed upon with EPA.
